COMPUTERS - ELECTRONICS - HAM RADIO - COMPUTERS - ELECTRONICS

```
                      FLEA   all SUMMER at MIT
                       April  17th,  1994
                            9AM-2PM

Come to the city for a great flea - plenty of free parking.

        MIT's  electronics and ham radio flea will take
 place on the third Sunday of each month this summer,
 April thru October.

         There is tailgate space for over 600 sellers and
         free, off-street parking for >1000 cars!

         Buyers admission is $2  (you get $1 off if
         you're lucky enough to have a copy of our ad)
         and sellers spaces are $10.00-each at the gate.

         The flea will be held at the corner of Albany and
         Main streets in Cambridge; right in the Kendall
         Square area from 9AM to 2PM, with sellers set-up
         time starting at 7AM.

 !! RAIN or SHINE !!  Have no fear of rain, a covered
 tailgate area is available for all sellers (6'8" clearance).

         Talk-in: 146.52 and W1XM/R-449.725/444.725 (PL 114.8/2A).

         Sponsors: MIT Electronics Research Society
                   MIT UHF Repeater Association (W1XM)
                   MIT Radio Society (W1MX)
     Harvard Wireless Club (W1AF)

Anybody know of a good shareware program for code practice?

This is my opinion and no one elses included the folks at Dartmouth.
The opinion is tainted by playing too many musical instruments.

I just ftped a program called "Morse Trainer US-1.1.1" from oak.oakland.edu
(\pub\hamradio\mac). I think it is the best one I have seen
so far.

To: info-hams@ucsd.edu

My fire department is looking for used Motorola MT1000s, which I
guess have been superceded by the HT1000. We need about three of
them pretty quickly.
 o cover 154 mHz region
 o 16 channel w/ scan

We would also like to acquire the programming cable for these.

Any sources would be appreciated.

That doesn't work if you're reading offline. First you wait for
your news packer (uqwk) to build the download files, and then you wait
again for for the modem to send it all to your local system.

Every time someone bloats this newsgroup with something like
the "Hams on Internet" list, I have to wait an extra 10 minutes
before I can even throw the stuff away.

With many (but not all) news implementations, they go to the newsgroup
"junk".

What is it exactly that you find objectionable about having your callsign
linked to your internet address? And if you find it objectionable, why do
YOU list your callsign in your sig file?

73, Bob.

To: info-hams@ucsd.edu

Since the Boston ARC archives (oak.oakland.edu:/pub/hamradio) have been
available for some time now, and many of you have acquired many programs
from it, I would now like to ask for your comments.

Please comment on:

* What you like about what the site has to offer

* What you do not like about what the site has to offer

* What changes you would like to see

* What you would like to see added/subtracted from it

* Any other specifics

Please send your comments directly to me, as I will not be reading news
much for the next few months.

Thank you very much.

Scott
